Location: Bengaluru, India / Kathmandu, Nepal

PROFESSIONAL SUMMARY

Computer Science Engineering student and developer dedicated to building practical web applications, business systems, and digital products. Experienced across frontend interfaces, backend APIs, relational and document databases, and production deployments with a focus on clean architecture, reliable engineering, and continuous improvement in DSA and system design.

EDUCATION

Bachelor of Technology (B.Tech) - Computer Science and Engineering 2025 - 2028
SRM Institute of Science and Technology (SRM IST), Bengaluru, India **CGPA: 8.7 / 10.0**

Coursework: Data Structures & Algorithms, Object-Oriented Programming, DBMS, Operating Systems, Networks, Software Engineering

Higher Secondary Education - Science (Computer) 2022 - 2024
Xavier International College, Kathmandu, Nepal **GPA: 3.16 / 4.0**

WORK EXPERIENCE

Founder & Full Stack Developer Dec 2025 - Present
MM Digital Garage

- Designed and developed production web applications and business systems across frontend, backend, and deployment layers.
- Built scalable Next.js applications, engineered RESTful API endpoints, and structured database models for performance.

Technologies: Next.js - React - TypeScript - Node.js - MongoDB - PostgreSQL

Full Stack Developer Sep 2024 - Nov 2025
Digital Cafe India

- Developed responsive web applications across client interfaces and backend services with focus on clean code and performance.
- Implemented RESTful APIs, optimized database queries, and collaborated on application feature architecture.

Technologies: React - JavaScript - Node.js - Express.js - MongoDB

Frontend Developer & Designer Jun 2023 - Jul 2024
Freelance

- Delivered responsive client interfaces and digital prototypes for startups and small businesses.
- Maintained fast load times, accessible semantic HTML, and custom UI component specifications.

Technologies: HTML - CSS - JavaScript - React - Figma

FEATURED PROJECTS

MM-Agro (Agricultural Inventory & POS System) Engineered inventory management & POS web app with real-time stock deduction, customer Khata credit ledger tracking, and stock valuation reports. (Next.js, TypeScript, PostgreSQL, Tailwind CSS)

eguru nepal (E-Learning Portal): Built student learning portal with live classroom connectivity, curriculum-aligned PDF study notes, and subject directories. (Next.js, TypeScript, Tailwind CSS, Supabase)

MM Digital Garage (Agency Platform): Full-stack agency platform with serverless lead capture, responsive UI architecture, and edge hosting.

Jeereu Restaurant (Dining Web App) Interactive culinary menu, online table booking form, and direct WhatsApp concierge integration.

TECHNICAL SKILLS

Languages: Java, JavaScript (ES6+), TypeScript, SQL, Python
Frontend: React, Next.js (App Router), HTML5, CSS3, Tailwind CSS, Responsive Design
Backend: Node.js, Express.js, Spring Boot, RESTful APIs, Server Architecture
Databases: PostgreSQL, Supabase, MongoDB, MySQL, Relational Modeling
Developer Tools: Git, GitHub, Docker, Vercel, Figma, Postman
